

# Colorado Comprehensive Plan of Safe Care

A Plan of Safe Care is a helpful tool for families with infants who are affected by substance use during pregnancy. This is your plan and can be used to highlight your family's strengths and connect you to support for keeping you and your baby healthy and safe. It can also change as your needs change. Complete this comprehensive plan with a trusted provider and make sure you get the support you need during pregnancy and after your baby is born. If you have already started a plan (either for yourself, your baby, or both) you can update that one without starting over, or use that plan to guide the creation of this one. Your plan will not be shared, unless you choose to share it. You can choose to share this plan with doctors, service providers, case managers, or others who support you and your baby. Sharing your plan helps make sure the people working with you are also working together, and know about the support you've built.

To promote the best outcomes, a POSC should include information about the (1) infant's health and well-being (2) physical health of impacted caregiver and family (3) behavioral health of impacted caregiver and family (4) parent/caregiver education (5) discharge planning/ consultation (6) referrals and plans for follow-up care. Please be sure to indicate any services that were recommended but ineffective or declined.

## Who's a Part of Your Team? (optional)

Date: \_\_\_\_\_

In the chart below, make a list of people who are helping you or who know something about your life. These can be professionals, or family or friends. It is helpful to sign releases of information for the Department of Human Services (DHS) to be able to talk to these people if they are helping you with your treatment and recovery from substance use. If there is a type of provider on the list below that you would like to start working with, ask for help connecting with that sort of provider. Fill out only the parts that apply to you. Feel free to leave spaces blank if they don't apply.

## Well Child Appointment Tracker (optional)

Well Child Visits are meetings with your child's pediatrician. The doctor will make sure your child is healthy and growing. They will also talk with you about nutrition and immunizations. It is important to make all of your child's medical appointments, because your baby is growing fast and it's important to make sure they're on a healthy track. Your baby may also need to see other providers to ensure they're healthy and happy.
